## Message

Dear Friends,

The newness of AUPP High School-Foxcroft Academy provides an opportunity to create and be part of something innovative and unique. The combination of resources available to the High School – resulting from its relationship with American University Phnom Penh and Foxcroft Academy – provide a great opportunity for Cambodian students to not only challenge themselves intellectually, but also make a meaningful contribution to their country's development. The school's endorsement of a STEAM philosophy purposefully provides students with the tools to excel in an increasingly futuristic world without losing the basic values that define Cambodian culture. AUPP High school-Foxcroft

Academy is committed to an education that responsibly combines modernity with respect, integrity, and the importance of family.

In an increasingly globalized world the importance of understanding the perspectives of those different from yourself is critical to physical, as well as mental growth. AUPP's motto, "Study locally, Live globally" reflects this sentiment and therefore embraces the diversity represented in our school both in body and mind. We have professors/teachers from all over the world, primarily because they are the best at what they do, but also because they bring a variety of ideas, and that is what makes us all better. Always remember, it's the mind that differentiates, not the body.

So, I welcome you to AUPP High School where you will belong to a community dedicated to empowering students through education and understanding. You are the beginning of what will become a long line of graduates whose success will inspire future generations.

William E. Thomas  
AUPPHS-FA Principal

# HISTORY

AUPP High School-Foxcroft Academy was founded by visionaries who recognize Cambodia's potential. Its geographic location, in concert with its youthful population, provides an unprecedented opportunity for economic growth. But to be successful and competitive in a global marketplace education and innovation are critical. AUPP High School-Foxcroft Academy represents an investment in the future of Cambodia and the generations of young people who will create it.

AUPP High School was founded through a partnership between American University Phnom Penh and Foxcroft Academy (FA). Foxcroft Academy has a two-hundred-year tradition of excellence and its diploma is recognized worldwide. FA was established as a private secondary school on January 30, 1823, becoming the first school to be chartered after Maine became a U.S state.

Expanding on FA's history of educational leadership, AUPP High School- Foxcroft Academy was established in Phnom Penh as a private grade 9 through 12 colleges preparatory high school on November 02, 2020. Its curriculum, created in partnership with Foxcroft Academy and American University Phnom Penh, embraces a STEAM (science, technology, engineering, arts, and mathematics) philosophy that focuses on combining disciplines designed not only to prepare students for university but also to provide students with real-world 21st Century skills. All courses are taught in English by teachers from around the globe. This ensures not only a variety of perspectives but also an expansive pool of highly qualified teachers. AUPPHS promotes a western-style proficiency-based education that provides students with multiple opportunities to express their understanding of a problem or issue.

Since its opening in 2020, AUPP High School has increased its enrollment by over 600 percent. Demand for the quality and type of education offered by AUPPHS Foxcroft Academy promises continued enrollment growth, but more importantly, opportunities for its students.

A celebratory background for a graduation ceremony. The image shows a large group of graduates in blue and black gowns standing in front of a building with a slatted facade. They are all looking up and throwing their black graduation caps into the air. Numerous gold streamers and confetti are scattered throughout the scene, creating a festive atmosphere. The overall color palette is dark blue and black, with bright gold accents from the confetti.

STUDENT COUNCIL

# Student Council

AUPPHS-FA Student Council allows students to develop leadership by responsibly organizing and carrying out school activities and service projects. The student council represents the student's voice and needs within the faculty structure. They also act as conduits for sharing student ideas, interests and concerns within the school-wide community.

# Acknowledgements

We would like to express our heartfelt gratitude to everyone who has helped make this yearbook possible. A special thanks to our dedicated project leader, **Hong Sovandara**, for their vision, leadership, and effort in bringing this project to life.

We would also like to show appreciation to our incredible team members: **Chao Vaychheang, Te Emily, Ratana Anuthrak, Lim Nydasophita, Heng KoungDany, Pen Pichchansokhethida**, and the teams from both the Media Club and Art Club for their creativity, hard work, and collaboration throughout this journey.

This yearbook marks our first-ever edition, and we hope it sets the foundation for many more to come. Despite the challenges we faced, particularly with limited resources, this project has been a labor of love and dedication. We believe that future editions will continue to build upon this foundation, improving year by year. Our goal is that each edition surpasses the last, reflecting the growth, creativity, and collective efforts of the entire school community.

Thank you to the school administration team, teachers, and students for the support and contributions. This yearbook is a reflection of our collective memories, and we could not have done it without each of you!
